

SANITARY NAPKINS PRODUCTION LINE

One of the cellulosic machine that designed and manufactured in JSM machinery is Women's Sanitary Napkin Machine, which can be offered both as a complete production line and as an option for customers. These machines have the most up-to-date options so that the JSM complex machinery has exported several machines to Iraq, Azerbaijan, Kazakhstan and sales inside Iran.

Certainly, except for quality, the other factors have also ensured the customers in the JSM complex. Factors such as after-sales service, spare parts support and complete setting up of the production line, which is also due to the indigenous knowledge of design and manufacturing within JSM machinery complex.

JSM NAPKIN MACHINE

The Features:

- Production speed of 300 pcs/min (Can be upgraded up to 1000 pcs/min according to order)
- Products size of Medium, Large and Ultra-large
- Products type of Panty Liner, Thin, Ultra-thin, Regular, Maxi/Super, Overnight and Maternity
- Printing equipment on Sanitary Napkin
- Ability to add Lotion to the product
- Flat or Tri-Folded option in two types
- Ability to Set the position of Silicone 4 and 6
- Roll tear detection sensor and alarm
- PIV Gearbox to adjust more accurately
- Thermal-Embossed bonding option
- ADL / Acquisition layer
- Automatic roll replacement system with Air shafts and smart Dancer
- Manual and automatic Web Guide systems made in JSM
- New design of Pulp Drum to save Pulp consumption with keep constant absorption amount
- Hot Melting system with spray and Slot nozzles made in JSM
- “Position Powder” option to increase the efficiency of powder according to the Order
- Ability to install “Remote Control” system to set and repair the faults by Modem
- Production and waste reporting system
- Intelligent temperature control system
- Using of PLC and HMI for easy and fast adjustment of processes
- Using of long-life super alloys material in strategic parts

power	3PH-380VAC-50Hz-60A
Production speed	300 pcs/min (Can be upgraded up to 1000 pcs/min according to order)
Product sizes	Medium, Large and Ultra-large
Product types	Panty Liner, Thin, Ultra-thin, Regular, Maxi/Super, Overnight and Maternity
Nozzle	Slot Contact and Spray
Main body material	Carbon steel
